Marriages and Deaths	161
References	179

## *Introduction*

The information provided in this document has been collected by Mrs Pat Pierce over a number of years. Large portions of the information have been remembered over a lifetime by Mrs Joan Smith of North Street who is an indefatigable village history collector. No editing of the texts has been done, leaving the voice or pen of the author to stand for itself. The views and opinions expressed are theirs alone.

Some information relating to Little Dunham and other surrounding villages has been included, either out of general interest or where there is an overlap of information.

Much of this information is anecdotal, some is from a very personal viewpoint, it may

be out-of-date or superseded by later events and there may be errors of some sort. No offence is intended if given and surnames have been mis-spelt. Corrections will be made in later issues.

Most of the buildings referred to in this book are now private dwellings with no public access.

If you have anything you would like corrected, if you can date a photograph, clipping or information, name a person in a photograph, or if you have information about the village new or old that you think should be included please contact the number on page 3 and it will be included in future issues.
